WORK EXPERIENCE

Capstone Project - NEXHK Web application

2022 -2023

- Part of the Team develop a fully functional Web application and also a Management Information System used as a tool to manage HK scholar. Become a Front-end programmer and experience some back-end throughout the development process.

Intern in iPhiTech IT and Digital Solutions Corporation as Web Developer Jan 2024 - April 2024

- Managed project timelines, delivering high-quality WordPress and Shopify websites that met client and senior requirements.
- Built dynamic e-commerce sites using Liquid coding and developed a PHP-based Food Ordering System.
- Earned a JavaScript certification from FreeCodeCamp and designed responsive websites and web apps using various platforms and frameworks.
- Utilized Tailwind CSS for creating seamless UI/UX designs.

Freelancing

- Developed client-specific websites and web applications, delivering designs that align with detailed client descriptions and requirements.
- Created websites using the Next.js framework, demonstrating proficiency in modern web development practices.
- Gained experience with API integration for front-end development, making backend requests using various libraries.

Full stack developer and UI/UX designer in Upwardleap Digital Solution

- Developed full-stack websites with dynamic content and modern designs, ensuring responsive user experiences.
- Designed custom UI/UX in Figma, aligning with client business themes and services.
- Built custom WordPress sites with dynamic post types for enhanced content management.
- Led end-to-end web development, including style guides, content creation, SEO, UI/UX design, and full-stack development.
- Maintained and updated existing websites, optimizing performance and incorporating modern design trends.
